Last Updated: January 30, 2007

Sorted: Alpha Order by Course Subject. Total Count of Courses Listed: 577

### **Arizona General Education Curriculum**

The Arizona General Education Curriculum (AGEC) is a 35-semester credit general education program of study that fulfills lower division general education requirements for students planning to transfer to any Arizona public community college or university. There are three types of MCCCDC AGECS. They are the AGEC A, AGEC B, and the AGEC S. Designed to articulate with different academic majors, the requirements vary accordingly.

### **AGEC Matrix**

This Matrix of courses compliments and supports the AGEC A, B, and S information within the MCCCDC college catalogs. Thus courses that have been processed and have gained a general education designation will be listed on this Matrix for users to access in the processes of advising students for transfer and curricular purposes.

The Matrix lists single courses and the general education area(s) satisfied by each course. Courses that meet general education designations through course combinations and/or through a specific sequence are also listed with the combinations connected by ampersands. Special notes regarding the combinations are also provided. The general education area(s) satisfied by the combined courses is listed at the end of the combination.

Example: GLG110 as a single course satisfies the Global [G] Awareness area. GLG110 & GLG111 combined satisfy Natural Sciences [SG] in the Core Area. Thus, if a student chooses to take the GLG110 & GLG111 combination, the student will satisfy [G] due to the successful completion of GLG110 and, in addition, will satisfy the [SG] general education area by successfully completing the course combination of GLG110 and GLG111.

Please be aware of the following general education policy that allows students to complete the Core and Awareness areas in the AGECS without exceeding 35 semester credits:

1. Courses can satisfy a Core area and one or two Awareness Areas simultaneously.
2. A course cannot be used to satisfy more than one Core Area requirement.

Students should consult an MCCCDC Academic Advisor to ensure appropriate course selection for general education purposes and transfer.

### **Maintenance of the Matrix**

The MCCCDC Curriculum Office maintains the Matrix on an ongoing basis. Action taken on MCCCDC processed curriculum and changes to General Education Designations may impact the courses listed on the Matrix. When the Matrix is updated the changes are communicated to MCCCDC curriculum personnel as well as advisors as soon as the changes are approved. Future term updates are identified with a note immediately following the course listed on the Matrix.

### **Other Resources**

Students seeking more detailed course information on any of the courses listed on the Matrix should access the Course Information, Quick Search or Advanced Search on the main page of the District Curriculum Office website, <http://www.dist.maricopa.edu/academic/curric/>
