

EMT 104 Basic Course  
CPR Requirement

Registration in EMT101 or one of the following is required in order to register for the EMT 104 course :

**Issuer:**

American Heart Association

American Red Cross

American Safety and Health Institute (ASHI)

EMP International or EMP America

Green Cross or National Safety Council  
(NSC)

**Level of Training:**

Healthcare Provider

Professional Rescuer

CPR Pro (CPR for Healthcare Professionals)

BLSPRO (Basic Life Support for Professionals)

Professional Rescuer

Current instructor certification for any of these levels also meets the requirement. National Registry accepts any CPR program that is approved by an individual state as meeting the minimum requirements for Health Care Providers established by the American Heart Association. All of the above programs meet those minimum standards.

It is to the benefit of all students to maintain their CPR certification 6 months after the completion of the EMT Basic course.
