

# Running a 2780 Go-No Go Report

When scheduling the 2780 Go-No Go report, there are a number of options available and it looks a little overwhelming. The only options you have to select are When, Format and Parameters. You can ignore: Database Logon, Destination, Print Settings, Server Group and Events.

Schedule  
MCCD\_SR\_2780 Go-No Go

Instance title:

**When**

Run object:

Object will run now.

**Database Logon**

**Destination**

**Format**

**Print Settings**

**Server Group**

**Events**

**Parameters**

From the **When** category, you can leave the Run object drop-down as "Now." If you want to schedule a report in the future, change that selection.

Expand the **Format** category. From the Report Format drop-down, review the options. The easiest to read is Adobe Acrobat format (you will see the report in PDF). However, also notice that the data can be saved in Excel format (which is useful if you are using the report data in a spreadsheet).

Expand the **Parameters** category. Notice the parameters will be empty if you are scheduling a new report. If you are rescheduling a previous report, you can modify only those parameters that have changed.

<input type="checkbox"/> <b>Parameters</b>	
Parameter	Value
Institution, Terms	<a href="#">Empty</a> , <a href="#">Empty</a>
Academic Org	<a href="#">Empty</a>
Location	<a href="#">Empty</a>

You have to fill in all of the parameters. To do so, click the Empty link for each item.
