

WebCT Instructions

Ebrary is a collection of ebooks, electronic versions of printed books on all different topics.

You can now create links to ebrary content to accompany a specific WebCT course or for quick access to a favorite ebrary resource. This feature is available either on or off campus.

To integrate ebrary content with WebCT:

1. Go to the PC Library ebrary website at <http://site.ebrary.com/lib/phoenixcollege>.
2. Search for a specific book or topic. Once you find the book, go to the top of your browser and copy the entire URL to your favorite text editor (Word, Notepad, WordPerfect, etc.). All ebrary URLs are standalone (meaning you can copy and past the link into a new browser and achieve the same result).
3. Login to your WebCT class using your username and password.
4. Click on **Bookmarks** (located in the upper left corner).
5. Click on the Create Bookmark button in the personal bookmark section.

6. Copy the URL you saved in Step 2 and paste it in the Location (URL) space. Be sure that you have the http:// at the beginning of the URL. Also, be sure to provide a descriptive label (Name) for you to remember.
7. Click on **Add bookmark** to save.

If you have any questions about ebrary, please feel free to contact Ann Roselle at ann.roselle@pcmail.maricopa.edu or call 602-285-7549.
